General Pope and Governor Jei

consulbly supported. The vision-passages by sparre designed to the man of the States under their countred as in present the white preportions are as a support and the states of the sta as Governor Jenkins and his friends desired,
or of the division by the Legislature into State
Senatorial districts. He adopted the last
named alternative "and senating and elegates
as nearly as possible in exact proportion to
the number of registered voters in such districts." He expresses entire confidence that

any disinterested person who examines his apportionment will admit that it is fair-and in strict secondance with the spirit of the in-more which he derives his authority to make the Lower House of their Legislature are allotted. "Representation in the Georgia
Legislature" he says, "has never been
founded on Journaliston but do territory.
Thus, three counties, whatever their poulation, have one Senator and no more; and each
county, however few or many its imbalisants,
has one member of the Lower Hoste, white
hirty-seven of the most populous opunities
have each two members." The adoption of
the county system would have given
a delegate so Coloquit County, with
its 18s registered worders, and but two
delegates to Chatham, which registers 7,142
roters. This is but one of many similar instances of gross injustice which would have
coefficied from the adoption of the rots
said by Governor denkins. Many delegates
would have represented a countituency of
less than 200 voters; while, on the other

The company of the control of the co

THE CURRENCY QUESTION.

There is no good reason why she West and the needs should not have banks and notes, just so far as the capital and trade of each, section justifies.

Netther fanile or notes out result capital. That must come from the application of labor 60 our lands and mines. But conks are estual reservoirs of capital, and notes in just are the representatives of, and little to, this capital. Notes are not money, said father to expital in some of the form, as all true correctly is.

All those things with which we effect our commercial resumer to see a sure of the commercial resumer to the commercial resumer to the commercial resumer to a set of the commercial resumer to a set of the commercial resumer to a set of the commercial resumer to a set our many, just a set of the commercial resumer to a set our many, just Borron, Mass., Nov. & To the Editor of The Chicago Tribune: on demand, in our library which it-sould never be bound. On the dresshifor-tion is a profit, and I sie not say that I would not tax this equitably for public bed. which not tax this equitably for public bed.

But that is of fifth moment compared with the certainty of ground par convertibility, that being the lived upon which the question entriest depends. That is seally the question on which the public have an abiding interest, analy is not the public have an abiding interest, analy is not the public have an abiding interest, analy is not the public have an abiding interest, analy is not accompanion are endiess. But I do not wish to the year, it is enough for me have a like on the live of the confidence of the public have been accompanion are endiess. But I do not wish to the analysis of the confidence of the public have been accompanied to the confidence of the public have been accompanied to the pu

that truth a sear as emothered that has been tried often, and always failed I only beg of you, in conclusion, that you will keep this just a little while, and then judge about what I have said to you, I taink I see somethingto our future which, perhaps, some others do not, and I shall be glad one of these days to remind you of this communication.

DAVID WILDER.

goes, and Abandoned Lands:

BEAR SIZ: In seply to your communication of the let instact I will state that you are doubtless correct in the opinion that the colored population did not decrease during the period from 1860 to the color of the colored population. correct in the opinion that the colored population of the not seed of the described during the period from 180 to the contrary, assembly compiled statistics written to the contrary, assembly compiled statistics written to the contrary that the aggregate mere population of the United States has conclude a consistent of the constant state of the part of my spoot, of December 81, 1808, which was estimated from very magre statistics. It was more hours is negacify to the rural literation, and the contract of the contract states of the contract states of the states of the states of the states of the contract states of the contract states of the states of the contract states of the contract states of the contract states of the contract states. For this state of the contract states are more than the states of the contract states are states of the contract states. For this indicates the contract states are states of the contract states are states of the contract states. For this indicates the contract states are states of the contract states are states of the contract states. The filtering starters compiled or declared from the filtering starters of the contract of the state of the contract for the filtering starters of the contract of the state of the contract for the state of the contract for the state of the contract for the state of the contract of the state of the contract for the state which they will bring us. Gold and silver, always have had not must have a certain relation to labor, and, therefore, are natural standards in spits of feediation. Paper cannot be a standard, but must, like the eigenfunction of the standard, but must, like the eigenfunction of the standard, but must like the eigenfunction of the standard, because of the standard, being earchit to provide that debtors as well as creditors shall be protected.

by the hopelessness of their condition. Hence the necessity of frequents insortations to replace the relations of excessive toil and extreme from the relationship of the control of the co

quivalent.

We want no government paper which is
to payable, principal and interest, in gold
to aspectife date, one do we want, or need
to have, a single bank note which is not alsuper convertable at the will of in bolder
and shamed at the millional trade centre or
reliab which is to serials to flow, as rivers Withing as Lab three days before election what will be read two or three days after it, it is not swell will be read two or three days after it, it is not swell will be of the any very minute description of our peculiar camean, which indeed I believe I have explained to your readers pretty fully already. But it may be gerministive in the days some of the predictions and expectations of the time, in view of the highest stacking to such matter effec the event has illustrated their read value. The P. L. L'a. (Personal Liberty Leaguers), with great affectation of saverey, which may concent reakness as well as strength, she not saverige to beaut in a semi-confidential way of the great things which their silinais with the beaucousts is to accomplish next Tuesday.
